

## THE MOP SQUAD STAFF PROTOCOL

### COVID 19

#### The Health and safety procedures for the well being of the staff and public.

- 1, All staff members have their temperature checked at the start of each day.
- 2, All staff members to wear masks and gloves at all times.
- 3, A proper hand washing with water and soap for 30 seconds is the most efficient way to clean your hands. Hands must be washed before using masks and gloves are after removing them.
- 4, - In case of developing symptoms (fever, coughs, chest pain, muscles pain) staff members must;
  - Stay home from work.
  - Immediately seek medical assistance by following the local protocols (i.e. call NHS 111)
  - Communicate to your direct manager
  - Do not return to work until cleared to do so.
- 5, Avoid as much as possible the “person to person” interaction (Do not shake hands, stay two meters away from others).
- 6, Staff members should not share cleaning tools.
- 7, Staff members should not share transport.
- 8, Follow directives from any regulatory authority, including local health organizations.
